

# Save Democracy 2024

Democrats led by Joe Biden and Kamala Harris rescued us from Trump and the Republicans in 2020. Democrats put shots in peoples arms to end the pandemic, provided \$1.9 trillion stimulus relief to families and businesses, passed the \$1 trillion infrastructure bill, passed the CHIPS bill to spur domestic manufacturing of microchips, passed the most significant gun legislation in 30 years, passed the PACT Act providing health benefits to veterans and passed \$370 billion to fight climate change. We are out of Afghanistan, rebuilt NATO, led the response against Russia's invasion of the Ukraine and established agreements with Asian countries against China. Millions of jobs created, low unemployment, inflation coming down, \$35 insulin. We are bringing the insurrectionists to justice. Historically great accomplishments but...

The MAGA Republicans led by Donald Trump remain a Clear and Present Danger to our democracy. They no longer disguise their clear mean-spiritedness, white supremacy and authoritarian values. Trump clearly intends to end democracy as we know it.

Democrats must save our democracy again! It is up to us at the grassroots level to meet the challenge. Don't agonize; organize. We won before and we will win again.
